LRH COMM NETWORK INTERNATIONAL

ED NW \_26\_ PAC 29 JUNE 1979

ALL PAC EXECS AND CREW

\_PREGNANCIES AND BABIES IN PAC\_

Our Children are our most valuable future resource. Sea Org children are the future officers and executives of the Sea Org. LRH says in SCIENCE OF SURVIVAL "...an interest in children includes

an interest not only in the bearing of the child but in the child's well being, happiness, mental-state, education and general future...

The whole future of the race depends on its attitude toward children."

Currently the execs of the CCO are working to set it up to take care of our children but the current set up is inadequate for our existing Sea Org children and far behind the growth of the baby population in PAC. It is important that CCO be given the chance to

become set up to ensure our children are cared for optimally and

trained for their future. We have a lot of work to do on the third dynamic here in PAC and a lot to handle and the time and work having

to be expended to cope with the expanding baby population at CCO can

be better directed toward this. Therefore the following rule is established:

FROM NOW UNTIL THERE ARE ADEQUATE FACILITIES AND

PERSONNEL FOR THE  
CCO AND THAT ORG IS SET UP TO HANDLE BOTH EXISTING SEA  
ORG CHILDREN  
AND FUTURE EXPANSION, THERE ARE TO BE NO MORE BABIES  
OR PREGNANCIES  
IN PAC.

This rule will stay in effect until CCO has a new building,  
has a full complement of the necessary personnel and an  
established  
and functioning HCO which can and does continue to put the org  
there.

Once these conditions are met, the rule will be lifted.

Any couple violating this rule will be subject to immediate  
Fitness Board to determine whether they are sufficiently a facility  
differential to their org and the Sea Org to warrant the expense,  
manpower and space required to care for their child. If the  
Fitness  
Board finds that they are not, they will be routed out.

Any person recruited for a PAC Org who has children must be  
weighed against his value to the SO versus the expense and  
work of  
caring for the child or children. For example, a Class VIII who  
has  
one child would be of sufficient worth to the SO, however, a  
Basic  
Courses Grad with four children would not necessarily be. Before  
any person with children is routed in a CSW showing the  
person's  
worth and how the org is going to accomodate for the children at  
CCO  
must be approved through Sr HCO PAC.

This rule is not intended in any way to cut across the Second

Dynamic of PAC Sea Org members nor is it intended that Sea Org members may not have children. It is only until CCO is set up to care for and accomodate more children.

This rule applies only to further pregnancies, no SO couple expecting a child is to be fitness boarded because of that. They and their org however, should do all possible to assist in the establishment and expansion of the CCO, as should any couple who wants to have children. By actually putting CCO there and setting it up to establish and expand itself, we will make it possible for the growth and expansion of Sea Org children, those with us now and those of the future.

*This is a copy of the document as disseminated by Andreas.*

So its not an original, nonetheless the underlying tone is worse that Draconian. Mikey correctly identified it as a PAC document. LRH may have signed off on it however.

Authorship of many documents may be confusing to non-"ex-Scientists" as just about everything has an "LRH" on it. [/size: acaa23f71f]
