

PART III
Organized Crime

Introduction

We have now taken the reader through the production and wholesaling phase of Dope, Incorporated. We have introduced the Far East clearinghouse bank, the Hongkong & Shanghai Bank and the gold and diamond houses that with HongShang feed the black market with invisible forms of payment.

In the following pages we will concentrate on the distribution side of Dope, Incorporated's business cycle. We will first enter the Canadian board rooms where the Keswicks, the Inchcapes and their representatives brush shoulders with the wholesalers of the drug trade — the Zionist *Hofjuden* middlemen — whose assigned task is to ensure swift and secure delivery of that "most valuable source of revenue" to Britain's retail distributors: the mob. The Bronfman family of Canada is our leading case, since they are the top middlemen for the U.S. market which, in turn, is the richest in the world.

Beneath the respectable veneer of the Bronfmans' corporate financial empire we will uncover Dope, Incorporated subsidiaries that control the criminal underworld of North America. We will look closely at Meyer Lansky, the Marcello family, and other

“Mafia” figures and discover that like China’s Green Gang, the mob is a secret army, a fifth column controlled by Britain against the United States.

We will trace the drug money to the gambling casinos and other “legitimate” enterprises that are the syndicate’s indispensable storefront cover for the drug trade. From these respectable enterprises we will trace the drug money into the halls of the state assemblies, city councils, congressional offices, and into the pockets of America’s contemporary Benedict Arnolds and Aaron Burrs, among whom we will find Edward Kennedy, Jacob Javits, Henry “Scoop” Jackson, and other leading lights of the Zionist Lobby. We will find tainted heroin money being funneled into Zionist organizations and from Zionist fronts back into political machines for the dual purpose of buying protection for the drug trade and shaping U.S. policy.

We will then take a grand tour through the Anglo-Dutch offshore banking centers, watching money being laundered through Basel, Liechtenstein, Tel Aviv, and the Bahamas; tracing it carefully as it changes ownership from the mob, to the Bronfmans, to British banks, to the Israeli Mossad — finally ending up in dummy corporations to finance international terrorism and a privately owned worldwide assassination bureau.

By the time we finish, the reader will have a view of organized crime that tears to shreds all the fairy tales of the drugstore novels and Grade-B Hollywood productions. The image of gangsters and thieves lurking in the dark underworld will dissipate before the fact that we are dealing with the most highly integrated, top-down political machinery in the world — one that enjoys the logistical support of a \$200 billion per annum international cartel and the “protection” of every political entity Britain has created through these vast “invisible earnings.”

The cutouts

The police investigator has a problem in trying to track down the source of the drug trade: he invariably proceeds from the

bottom up and gets lost along the way long before he reaches the level of command that counts. **Every year, local police arrest thousands of street corner and schoolyard pushers, yet it is a rare occasion when any of these arrests leads to the arrest of higher up syndicate figures who ply the street trade in the first place. And these local syndicate warlords are themselves usually several steps removed from the "Mr. Bigs."**

As Part II of this report demonstrated, at the top, *British banking* — through HongShang — controls the production and wholesaling side of Dope, Incorporated. This "outfront" activity in the Far East is protected by the legal technicality that the area is off-limits to U.S. investigative agencies. (As one experienced U.S. foreign service officer put it, "It would be easier for a white Anglo-Saxon Protestant to penetrate the Politburo of the Chinese Communist Party than it would be to gain access to the Hong Kong or Swiss bank accounts of the drug traders.") At the retail, distribution end, there is no parallel way of *directly* linking the British oligarchy to the drug traffic — at least not with the ordinary tools of the police trade.

One of the ABCs of any covert operation is the time-tested practice of securing middlemen — or, to use the professional expression, "cutouts" — that effectively conceal the identities of the stage managers who run the show from behind the lace and velvet curtains. From the top all the way down to the street level, Dope, Incorporated is run through layer upon layer of such cutouts.

Even in China, where the British Crown brazenly pursued its opium policy, it operated through the corrupted Soong family which carried out the day-to-day business operations for Jardine Matheson.

In the West, the prime cutout for Dope, Incorporated is the Zionist Lobby.

This cutout begins at the top with the cohesive grouping of *Hofjuden* ("Court Jews") who serve the British monarchy as loyal, wholly owned servants. These families, whom we will meet by name, have a centuries-long tradition of attaching themselves to the predominant noble houses of Europe, providing indispensable services as tax-farmers and errand boys for the

types of missions that the aristocrats would prefer to plan but not get caught in carrying out.

Many of these *Hofjuden* families migrated from Amsterdam to Britain after the "Glorious Revolution" (1688), which brought the Dutch House of Orange onto the British throne in alliance with the most bucolic, feudalist landed gentry of the Isles. That Anglo-Dutch merger of the late 17th century turned Britain into the most powerful center of the European oligarchical faction — a status it has maintained for three centuries. For these *Hofjuden* families, the relocation to Britain marked no shift in allegiance; they have functioned as servants for the *oligarchical system*, not for specific houses. Several of the *Hofjuden* families who converged on London during the 17th and 18th centuries had served the Genoese bankers in their takeover of Holland, had participated in the Dutch East India Company's first expeditions in opium trade, and had collaborated over the centuries with the British Jesuits against European humanist forces.

The *Hofjuden* should not be confused with the Jewish people. In much the same way that one would not condemn an entire nation for the crimes committed by its most deranged citizens, one cannot condemn the entire Jewish people for the centuries of crime committed by the *Hofjuden*. The only relationship the *Hofjuden* have had to Jewry is that of persecutors and tormentors. As the clandestine operations bureau for the oligarchy, they quickly learned that they could augment their capabilities tremendously by subjecting Jews to waves of persecutions and then recruiting terrorized Jews into Zionist organizations that had as their ostensible aim the "survival" of Jewry! In street parlance, the *Hofjuden* have run a six-century-long protection-extortion racket against the Jewish people — to the overall effect of building up a sizable "Zionist" network at the disposal of British Secret Intelligence. This traditional relationship to Jewry was carried to its lawful conclusion in the 20th century when the Rothschilds, Warburgs, Oppenheimers, Schroeders, and other *Hofjuden* became the leading financial backers of Adolf Hitler.

One of the greatest benefits that the *Hofjuden* gained by their complicity in Hitler's genocide of the East European population was that they could henceforth hide behind the memory of the

awesome fate of millions of Jews and conduct the filthiest sorts of operations — from drug-running to terrorism to genocide against Arab and related populations — without being exposed for these crimes against humanity. Whenever any critic attempted to expose these crimes, he was quickly assaulted as a “Nazi,” a “fascist,” or an “anti-Semite.”

It is neither unrelated nor coincidental that these Zionist *Hofjuden* were delegated the role of cutouts between the inner circles of the British nobility and the filthiest gutters of organized crime. Even within the *Hofjuden*, we encounter two levels: one is the centuries-old families (the *Hofjuden* “elite”) who rub shoulders with and are intermarried with the nobility; and the second, the “initiates” — “chosen” by the *Hofjuden* elite to be the drug-runners, the bootleggers, the murderers, and extortionists — who themselves hope that by slavishly serving the British oligarchy they will be placed among the ranks of the Zionist “respectables.”

Within the first category, we find such “respectable houses” as these:

The **Montefiores** trace their origin as “special operations” experts for the European oligarchy to the 13th century in Spain, when they ran errands as tax farmers and Inquisitors for their masters, the Genoese. The Montefiores later moved to Holland to help found the Dutch East India Company and the Bank of Holland. After the Stuart Restoration of the mid-17th century, the Montefiores moved to England where they helped establish the Bank of England and the British East India Company. Under Sir Moses Montefiore, the family collaborated with Lord Palmerston and Prime Minister Disraeli in the founding of the present-day Zionist “movement.”

The **Goldsmids and Mocattas** have been the leading bullion merchants for the royal family of England since the Stuart Restoration, predating the founding of the Bank of England. As we have seen, both families conduct a significant portion of the black marketeering in precious metals for the Hong Kong drug traffic.

The **Oppenheimers** control a large portion of the diamond and gold mining in South Africa and are interlocked with the

HongShang Bank to provide yet another means of exchange for drug transactions.

The Canadian de Hirsch family bankrolled much of the Jewish migration from Eastern Europe to Canada and is still a bankroller of Zionist organizations.

The Sassoons were the first *Hofjuden* family to concentrate their resources primarily in opium production. Known as the "Rothschilds of the East," they settled in India at the beginning of the 18th century. The Sassoons relocated in 1949 to the Caribbean where they established themselves on the ground floor of casino gambling and unregulated offshore banking.

The Rothschilds began their fortune in Hesse-Cassel, Germany by supplying Hessian mercenaries to the Hanoverian King George III of Britain against the American colonies. They are "johnny-come-latelys" to the *Hofjuden* circle, having only seriously gained a place in the oligarchical court with the Treaty of Vienna in 1815. From that point, however, the Rothschilds have expended considerable resources toward the subversion of the American republic; they maintain an "investment" presence in Dope, Incorporated.

Immediately below the *Hofjuden* elite are those "initiate" families selected and sponsored to run the criminal underworld and its "legitimate" front organizations. Into this category falls the powerful Bronfman family of Canada, the Hong Kong of North America. By all accounts one of the richest families in the world, the Bronfmans are a sterling example of a family hand-picked and raised out of the gutter to become some of the best paid crooks in the world. A Bronfman illegal loan of \$350,000 to the Campaign to Re-Elect Hugh Carey as Governor of New York recently caused a public outcry, but as the story we now tell shows, the Bronfmans themselves are owned and *operated* by the British banking elite of Dope, Incorporated.
