

## THE POISON IN BRITAIN

VERY briefly it should be noted that in Britain we received, during the latter half of the 19th and earlier part of the 20th centuries, an influx of German and Russian Jews, including Ludwig Mond, Sir Ernest Cassel and Chaim Weizmann. Mond and his son, Sir Alfred (1st Lord Melchett) were leading lights in the process of foisting upon this country the policy of monopoly of key industries together with the transference of information and control to so-called international bodies, the focus of which was then German, e.g. Imperial Chemical Industries and I.G. Farben. The Germans received information of our processes, but it was largely a "one-way street". These large monopolistic firms like I.C.I. are a source of great weakness to us. They are under international financial control working for Zionist purposes of procuring a world government for "Israel". In the past, the control of money, gold and credit has been the primary weapon of the Zionist, but as the money myth has been exploded as shown earlier in this paper (although not yet as far as the general public is concerned), legal control of raw materials is essential to the pursuit of the policy to a final and successful issue. Genuine and unfettered private property of any description whatever is absolutely fatal to it; and the liberal financing of any movement, "Commonwealth", "Liberal", "Socialist", "Henry Georgite", "Single Tax", or "Communist" which attacks the idea of private ownership in anything whatever, can be traced, without difficulty, to Zionist bankers. That is why the richest body of individuals in the world subsidises attacks on wealth. Not a single one of the movements mentioned has ever attacked the Money Power or the Jews. But as it was impossible entirely to ignore the subject of finance, after the publicity given it by such events as the election of a Social Credit Government in Alberta, all the Left Wing parties have included the "nationalisation", i.e. central control of banking in their programmes. The objective is similar to that involved in the "Nationalisation" of coal. The object of the nationalisation of industries is to provide the international loanmongers with control of the assets, rather than the mere taxing power of the country. Nationalisation robs the people of their assets, besides being very inefficient and destructive of individual freedom.

The real conflict in the economic world is not between cartels,

monopolies and nationalised industries and property, but between all three and small businesses and privately owned property. The three are merely different forms of monopoly. Socialism is monopoly. Monopoly is the policy of the Sanhedrin and it is expressed in the various forms of cartel, "public corporation" like the "British" Broadcasting Corporation, the London Transport Board, the Tennessee Valley Authority, or outright State ownership of the Russian type. They all lead up through the stages to "nationalisation" in the individual states and on through various national groupings, where national sovereignty is surrendered, e.g. European Union, N.A.T.O., the Soviet bloc, Anzus Pact, United Nations, to the ultimate object of World Government. All the stages, as they are achieved, have the effect of bringing the organisations concerned more firmly under the control of the Sanhedrin.

In the process all individual sovereignty is wiped out, because all the people are brought into the position of being "wage" or "salary slaves" of the monopoly control. We are well on the way to that state of affairs in this country. The whole of the taxation system has been deliberately designed to produce the result by means of death duties, graduated income tax, etc. The object is to destroy the real aristocracy and its inherited memory of tradition and policy and all individual independence and by an issue of bribery in the form of "social services" corresponding to the "bread and circuses" of Roman days, to persuade the numerous mob to vote for measures which they do not understand and which amount to signing the death warrant of the whole nation.

Since the cynically insincere opportunist Disraeli injected his Liberal and Radical Jewish poison into the Tory Party, it has become less and less Tory and more and more Socialist and Internationalist in effect until it is now for all practical purposes, as completely under the control of the Sanhedrin as is the Socialist Party.

The parties are merely used by the Sanhedrin to keep the people divided over unreal issues while all the time they are, in their blindness, being led into complete subjection. No party attacks the Sanhedrin or Dollar Barons. No party mentions, let alone advocates monetary reform. No party will give heed to any suggestion that an investigation be made into secret societies and subversive movements. It makes no real difference which party is in office, the Sanhedrin is always in power. They all pursue what is fundamentally the same policy of destroying Great Britain and the British Empire. Look at the way we have been running away from our responsibilities of Empire all over the world during the last ten years under the pressure of the hidden forces working on the lamentable figureheads in office. It appears to be impossible

to rise in any party without making suitable obeisance to Judaeo Masonry.

It is significant that such organisations as the Fabian Society, the London School of Economics, P.E.P., and the Royal Institute of International Affairs (Chatham House) were richly endowed by Jewish finance and have been largely guided by Jewish influence in instilling the Fifth Column doctrines of Socialism and Internationalism into our body politic.

The Fabian Society, with its associated organisations, is the fountainhead of Socialist ideas in English-speaking countries. Socialist Movements all over the world were dominated by the influence of the Jew Fabian, Harold Laski. After discussions with Stalin, late in 1946, Laski made the very important statement that the English Socialists and the Russian Socialists were approaching the same objective by different roads. Karl Marx, the Jew, had said that the British would never make their own revolution and that foreigners would have to make it for them. But the horde of German and Russian-speaking Jews who poured into this country for the purpose have managed to find a large number of Gentile dupes to work for them. The Society had been formed under the leadership of Professor Thomas Davidson, "an ethical Anarchist Communist", in the winter of 1883-84. But he was superseded by the Webbs and George Bernard Shaw.

As indicated by Laski, the policy adopted was not the violent revolution one used in Russia, but a silent revolution based on the undermining of the nation's institutions from within. The idea was to influence all other political groups by permeation and infiltration: Sovietisation by stealth. These infiltrators met with astonishing success, particularly in the Liberal Party and later in the Labour Party which they took over and converted into a Socialist Party; the unfortunate Labour representatives having completely failed to see that Socialism was diametrically opposed to true Labour interests.

H. G. Wells described the Fabian leaders as pedants who believe that fair ends may be reached by foul means, and said that Sidney Webb was an "incessant little intriguer". Writing of Webb the Jew historian, Elie Halevey, wrote: "I can still hear Sidney Webb explaining to me that the future belonged to the great administrative nations, where the officials govern and the police keep order." He also mentions Shaw arguing that: "The world is to the big and powerful states of necessity and the little ones must come within their borders or be crushed out of existence."

As an example of what happened, George Lansbury relates how the International Financier, Sir Samuel Montagu (Lord Swaythling), gave him financial support to keep strikes going until their partner-

ship was broken by Lansbury becoming a definite Socialist. Montagu wanted Lansbury to stay in the Liberal Party and preach his Socialism inside it.

The Fabians understood the weakness of most politicians, of all parties, to tend to centralise political power and set to work to get them to support legislation which would so centralise power that a process of delegation of power to a growing bureaucracy became inevitable. Once the bureaucracy was empowered to make regulations and decrees having the force of law, responsible Government was undermined. That is, they deliberately set out to pervert the Parliamentary system and to use it to reach the same objective which the Communists wanted to reach by force.

It is worth noting that the introduction of universal suffrage, combined with the secret ballot, inevitably leads to irresponsible voting and to irresponsible politicians who will plead mandates for their actions.

The London School of Economics was, according to Mrs. Webb, financed with the help of the Rothschilds, Sir Julius Wernher and similar financial magnates. Lord Rothschild is the "British" head of the most powerful family money trust in the world. He joined the "British" Labour Party in 1945. During the war he was closely connected with the policy of interning British patriots (Gentiles) under Regulation 18b. In 1920, Sir Ernest Cassel gave the School £472,000, when it was in serious financial difficulties, in order to make it a place "to raise and train the bureaucracy of the future Socialist State".

Cassel's favourite grand-daughter was Lady Mountbatten, whose Leftist views are supposed to have had a big influence on her husband. We have seen the part they played in the scuttle from India, to say no more.

The influence of the School has been world-wide. The "key" members of the bureaucracies in all English-speaking countries have been trained there and its teachings have permeated the universities. The School was much under the influence of Laski, whose philosophy was summed up as follows: "Christianity has failed, and the Russian ideal is taking its place as the inspiration of mankind, and as the standard of public morality." Sir William Beveridge, advocate of a "half-way to Moscow policy" was Director of the School from 1919-1937. The influence of the School has been evil wherever it has permeated.

P.E.P. (Political and Economic Planning) is a semi-secret Socialist organisation developed by the Fabians as part of their conspiratorial technique. Lord Melchett of I.C.I. was associated with it. He was a leading advocate of "rationalisation", which Trade Union leaders accepted as a step towards nationalisation. In

1920, H. G. Wells said: "Big business is by no means antipathetic to Communism. The larger big business grows, the more it approximates to Collectivism. It is the upper road of the few instead of the lower road of the masses to Collectivism."

Fabians and other Socialists are keen supporters of economic centralisation and the crushing of large numbers of small and medium-sized businesses. The most prominent in P.E.P. has been Mr. Israel Moses Sieff of Marks & Spencer. He is also one of the leading Zionists and a Russian-speaking Jew. P.E.P.'s typically Fabian conspiratorial methods are shown by the instructions issued on April-25th, 1933, with a broadsheet outlining what can best be called Sovietisation by stealth—"You may use, without acknowledgement, anything which appears in this broadsheet on the understanding that the broadsheet and the group are not publicly mentioned, either in writing or otherwise. This strict condition of anonymity . . . is essential in order that the group may prove effective . . ." The broadsheet then went on to outline how farmers and manufacturers should be controlled by "duly constituted authority" and that small traders should be eliminated. The broadsheet showed beyond all doubt the totalitarian nature of the policy being pursued by P.E.P.

It is hardly surprising that, in connection with the policy of gradual Sovietisation put forward by P.E.P., Mr. Sieff made the claim that: "The only rival world political and economic system which puts forward a comparable claim is that of the Union of Soviet Republics."

On October 14th, 1938, *Planning*, the journal of P.E.P. stated that: "We have started from the position that it is only in war, or under the threat of war, that a British Government will embark on large-scale planning", and went on to say that ". . . emergency measures should, as far as possible, be framed in accord with the long-term needs of social and economic reconstruction." It will be seen that the Fabians welcome war conditions to further their ideas, as do their masters the Sanhedrin. It is significant that the Socialists kept working to embroil us in war and, at the same time, voted for disarmament.

P.E.P. also infiltrated the "Conservative organisations and it is of interest that Churchill has made great use of Lord Woolton, of Lewis Ltd., and one time fervent Fabian. Churchill himself, of course, has been a lifelong intimate friend of leading Jew financiers like Bernard Baruch, Sir Ernest Cassel and Sir Abe Bailey. He is also a hereditary Whig-Liberal, a life-long Zionist and a worker for World Government, notwithstanding his oath of allegiance to the British Crown.

The ideas of P.E.P. have had considerable influence in America,

particularly during the Roosevelt régime. In 1934, Mr. Louis T. McFadden, an American Congressman and recognised authority on banking matters, exposed the connection between the New Dealers in America and the English Fabians when he said: "Many serious people in England feel that this Fabian organisation (P.E.P.) practically controls the British Government and that this Government will soon be known as "His Majesty's Soviet Government" . . . About three months after the National Recovery Act (the first of the New Deal Socialist measures) of the United States, when Israel Moses Sieff was urged by members of his Committee to show more activity, he said: "Let us go slowly for a while, and wait and see how our plan carries out in America."

On March 15th, 1934, in an address criticising the New Deal Socialist legislation for controlling cotton acreage in the U.S.A., Mr. McFadden said: "Their action (the New Deal Planners) in this matter is also assisted and aided through the agency of the Foreign Policy Association of the United States, which is directly connected with the Fabian Society, or a branch of it, in England, which at the present time is attempting to take over the control of agriculture and its operation in England . . . . I call your especial attention to the recent article *America Must Choose* by Secretary of Agriculture Wallace, a syndicated article put out under the auspices of the Foreign Policy Association of New York and copyrighted by them. This article is quite in keeping with the plan of the British offspring of the Fabian Group."

Note that the Foreign Policy Association was sponsored by Paul M. Warburg of Kuhn, Loeb Co., and by Bernard Baruch the continuing "unofficial President" of the U.S.A. Also Mr. James Warburg has openly expressed himself in favour of some nationalisation. It is inescapable that Socialism is the policy of the International Financiers.

George Bernard Shaw said: "Lenin owed a great deal of his eminence to the fact that, in his younger days, he studied the works of Sidney Webb . . . . The success of the Russian experiment means that old words, like Fabianism and Socialism, are all out of date. There is nothing now but Communism."

One of the basic features of the Soviet economy is economic conscription. Irrespective of how it is introduced, Socialism in practice inevitably leads to manpower control. Shaw was quite clear about this when he said, in the October issue, 1921, of *The Labour Monthly*: "Compulsory labour, with death as the final penalty . . . . is the keystone of Socialism."

It is clear that the ends of the Socialists and the Communists are the same—the Monopoly State. The only quarrel between them is as to the means of attaining it. The Socialists prefer the

"democratic" method of the ballot box, and the Parliamentary system, by which slavery can be introduced just as effectively as by direct violence. What is the difference to an individual between having his property taken away from him by Act of Parliament (as in nationalisation) or at the point of a bayonet?

Socialists may argue that their "democratic" methods ensure financial compensation to all persons who have property taken from them by legislation, but Fabians have made it clear that such compensation will also be taken back from them by crippling taxation. *The Scotsman* of January 7th, 1946, reported Professor Laski as follows: "Professor Laski said he had never been worried about compensation so long as there was a Labour Chancellor of the Exchequer who could fix the levels of taxation, especially Death Duties, Estate Duties and Legacy Duties. Compensation was a book-keeping transaction."

There is ample evidence that the Fabian-trained Socialists are working for the eventual overthrowing of the Parliamentary system in favour of rule by officials on the lines of the Russian plan of Commissars. Also, in the words of Mr. Attlee, they are deliberately putting world order before loyalty to the country.

The Fabian-Socialists, in common with the Communists and Zionists, are agents of the Sanhedrin for destroying the power of the British peoples to resist the Satanic plot of world dominion, whether they are conscious of it or not. They have been so successful in poisoning the minds of all classes in the country that even the "Conservatives" have become a dead loss so far as defending and preserving our institutions and liberties are concerned. Their actions, if not always their words, serve the purposes of the Sanhedrin just about as effectively as do those of the Socialists.

Chatham House was also richly endowed by the leading Jewish Industrial Trusts and Banking Houses, such as N. M. Rothschild and Sons, Reuters Ltd., J. M. Schroeder & Co., and their Gentile fellow-travelling associates: the Rockefeller Foundation, the Carnegie Trust and the Prudential Assurance Co. It has proved to be one of the chief centres of the insidious, stealthy propaganda aimed at undermining our National Sovereignty, and its director, Professor Toynbee, is the classical exponent of the sinister Fifth Column doctrines of "Internationalism". In 1931 he delivered a speech at Copenhagen which offered further glimpses of the workings of the International Conspiracy to deprive countries of their political frontiers, and individuals of their rights. In the course of it he said: "In plain terms we have to re-transfer the prestige and the prerogatives of sovereignty from the fifty or sixty fragments of contemporary society. I will merely repeat that we are at present working, discreetly, but with all our might, to wrest this mysterious political force called Sovereignty out of the clutches of

the local national states of our world. And all the time we are denying with our lips what we are doing with our hands."

Chaim Weizmann, a Jew from Russia, came to this country and, within a few years he had successive British Governments carrying out his plans for setting up a Jewish State in Palestine, such was the powerful influence of Jewry in the country. In fact, the Socialists supported Zionism so strongly that he has stated that he often had to go down on his knees to implore British "Labour" politicians to moderate their demands on behalf of Zionism. The real objective of the Sanhedrin in supporting the Zionists can be imagined from a paragraph in a letter from Mr. Louis Marshall, the legal officer of Kuhn, Loeb & Co., and a leading attacker of Gentiles who have attempted to disclose the Jewish World Plot. The letter was written to a fellow Jew, Max Senior (September 26th, 1918) and this was the paragraph: "The Balfour declaration, with its acceptance by the Powers, is an act of the highest diplomacy. It means both more and less than appears on the surface. Zionism is but an incident of a far-reaching plan ; it is merely a convenient peg on which to hang a power weapon."

The Sanhedrin is working for complete world dominion and a Jew State in Palestine would be useful because Palestine is the most important strategic centre in the world. Also the mineral wealth of the Dead Sea has been estimated at 5,000,000,000,000 dollars. So one can understand why the British and the Arabs have been ejected with United Nations assistance. B. Jensen's books are a mine of information on these subjects.

Most British politicians, from Lloyd George onwards, have been protégés of the Jew financiers or in some way under their influence. For many years the control of our financial policy was in the hands of the Jew-descended and Jew-inspired Montagu Norman.
