Dear [REDACTED]:

Some further thoughts on cultism:

Carto used to brag to me that it was he who had converted Lyndon LaRouche from "Leftism" to anti-Zionism. The Spotlight published several joint-investigations with the Larouchies, and marketed their book, Dope, Inc.

The right-wing "security expert" Mitch WerBell III ran a security training camp in Alabama, and LaRouche used to send his boys there for tuition. However, WerBell's camp was not a financial success. He had to resort to becoming bodyguard for porn-merchant Larry Flynt. While accompanying Flynt to court one day, WerBell had a heart-attack and died.

LaRouche has also been assisted by Mordechai Levy, the leader of the ~~ADL~~ Jewish Defense Organization, who was kicked out of the JDL for being nuts. Levy says that he was "spying" on the LaRouche people for the ADL; and ADL depositions confirm this.

Also on LaRouche's staff was Roy Frankouser, former KKK leader from Pennsylvania. Frankouser is one of the defendants in the currently on-going credit-card scam prosecution. He was a buddy of Dan Burros, the Jewish-Nazi who killed himself when he "found out he was Jewish"!!! and of Dan Patler, the deranged Nazi who murdered Nazi Party leader George Lincoln Rockwell, *after a tiff.*

Rockwell was secretly financed by Carto and, <sup>also</sup> by William F Buckley, currently the darling of the "respectable" conservatives.
