

## NCLC RESUME OF RECENT EVENTS IN CHRIS WHITE BRAINWASHING

Because of recent advances in the science of psychoanalysis and breakthroughs in the deprogramming of a KGB brainwashed member this last August, the International and National Caucus of Labor Committees has become the target of a CIA-British Intelligence MI-5 operation. In an effort to uncover NCLC methods, as well as to halt our organizing, the CIA and MI-5 brainwashed Christopher White on various levels to provide NCLC chairman L. Marcus with a deprogramming problem which they could monitor closely. Various parallel plans to assassinate Marcus and sow confusion in the organization were parts of the programming. The deprogramming of these brainwash victims puts the NCLC in an historic position--blowing the cover on an operation of international espionage involving the CIA, British Intelligence, the British government, NATO intelligence and the NYCPD. A brief chronology of events follows:

Sept. 17--For a twelve week period, from Sept. 17 to Dec. 17, 1973, Christopher White, a British subject and leading member of the ICLC was subjected to an intensive program involving electro-convulsive shock treatment in order to simulate a KGB brainwashed victim.

Dec. 27--British Caledonia flight 221 out of Gatwick airport was downed due to sabotage of one engine. White and two MI-5 agents were shown on the passenger list, but were not on the flight. This gave the CIA/MI-5 a cover for the final 12 hours of programming, to simulate a psychotic state in White so that he would be put in contact with L. Marcus immediately upon arrival in the U.S.

Dec. 31--In the early morning hours, the first level of simulated KGB programming revealed a KGB plot to assassinate Marcus with a 7-man frogman team, activated by a call from White to a KGB agent in Greenwich Village. Alternately, White was programmed to assassinate Marcus himself. Although the frogman team and other aspects were part of the simulated program, an actual plot to assassinate Marcus in the confusion did exist. The National and International press was immediately contacted with these sensational developments. The uniform response from all press--"you've got a story, but we can't print it," on orders from the CIA and NATO. Midday, Dec. 31--CIA-programmed Labor Committee member, Bill Engdahl began to psychologically decompose when unable to find White, or to carry out the alternate plot to kill Marcus. Other members began to manifest symptoms of programming.

Jan. 1--Phase 2 of CIA operation went into effect as initial assassination threat was surmounted. Phase 2 was Operation Chaos and Confusion, during which "program paranoia" was to spread among the membership. Further deprogramming of White indicated that the KGB, through assassination and infiltration, is planning to take over the NCLC, and, from there, further infiltrate the CIA and NATO. This second level was a cleverly concocted blend of truth and falsehood designed to spread paranoia through the membership and discredit the organization prior to a second assassination attempt.

Jan. 2--Deeper layers of programming began to reveal a decreasing KGB role and increasing CIA role. This was corroborated that evening as activities initiated by the "Dillon group" result in the arrest of 6 LC members. Robert Dillon, a former LC member who was sent to Iran by the Columbia Univ. Dept. of Anthropology to be brainwashed, was running a discrediting operation with several programmed members and their dupes. Primary in this operation was the use of CIA-programmed Alice Weitzman as the supposed victim of a concocted kidnap plot which resulted in the above-mentioned arrests.

Jan.3--The NCLC announced an injunction against the CIA and NYPD from making further arrests of members of the NCLC. Further aspects of the assassination plots were revealed: Alice Weitzman carried the code to activate White to kill Marcus; Engdahl carried the code to activate White to kill White's own wife, Carol. Included in the program was a direct message to Marcus.

Jan.4--Final deprogramming directly implicates the New York City Police Department in the conspiracy. It became clear that police agencies were threatening to take possession of Mr. White by court order or otherwise, in order to either destroy his mind with drugs or electro-shock methods, or to kill him and attribute this to a "psychotic suicide." Mr. White's wife would similarly have to be eliminated in view of the corroborative evidence she possesses concerning his brainwashing. The NCLC began its release of detailed evidence with the publication of a "programmed print-out" reproduced by Mr. White in a relaxed state.

Jan.5--The NCLC revealed that with the final deprogramming of Mr. White, the British Government would issue an order for the activation of a "random squad" to accomplish the assassination of Marcus, Mr. Chris White and Mrs. Carol White. According to Mr. White's program, the test British Intelligence would use to determine if White was deprogrammed was a message that he was incapable of recalling until brought out of the programmed state. Detective Finnegan of the NY Police "Red Squad" was specifically identified by British Intelligence as officer-in-charge of the random Assassination squad (Dillon group?).

Jan.6--An EMERGENCY NATIONAL COMMISSION OF INQUIRY is initiated to protect the internationally significant evidence uncovered by the NCLC. Initiating members are Conrad Lynn, New York attorney; Rowland Watts, President of Workers' Defense League and New York Executive Board Member of Labor Organizers' Defense Fund; Arpiar Saunders, Jr., National Prison Project/ACLU Washington, D.C. for identification only); W. McNeil Lowery, Vice-President, Humanities and Arts, The Ford Foundation; Ken Dolbeare, Chairman, Political Science Department, University of Washington; Dr. Sorab Ghandhi, fellow of the Institute for Electronics and Electrical Engineering and Chairman of Electro-Physics and Electronic Engineering Division of Rensselaer Polytechnic Institute; Nicholas C. Cardell, Jr., Minister of First Unitarian Society of Albany identification only); and Vladimir Hartman, Executive Director, Capitol Area Council of Churches. The injunction against the CIA and NYPD was initiated as telegrams of notification were sent to William Colby, Director of CIA; Michael Codd, Commission of NYC Police Dept.; Det. Finnegan, NYPD Red Squad and their attorneys; William Saxbe, Attorney General of U.S.; Lee Rankin, City Corporation Counsel; and Director of CIA, New York City office.
