

Henry Kissinger: Soviet Agent

THE MOST DANGEROUS MAN
IN AMERICA!

*A former General
in Communist Intelligence
says Kissinger was a
K.G.B. agent before he
went to Harvard.*

by Frank A. Capell

Heinz Stern (alias Henry Kissinger) has infiltrated administration after administration doing the dirty work of the Council on Foreign Relations and the Trilateral Commission.

As a front man for the One World Conspirators, Kissinger is spearheading a campaign by his lackey, Alexander Haig, for the presidency of the U.S.

Kissinger has been the guiding force behind diplomatic intrigue in South America (Chile), Korea, the Philippines and Pakistan. He is intent on destroying all "right wing" governments and placing instead their governments which are run by members of the Trilateral Conspiracy.

From behind the scenes, this man of mystery who by his actions can truly be called "Agent of Doom", manipulates scores of "our" political and financial elite who carry out his bizarre plots to change the world into the world he wants to see ruled by his ONE WORLD apparatus.

In 1974 the late Frank A. Capell, who was employed for several years as an Intelligence investigator, interviewed a former communist defector who had been a general in Polish Intelligence and who was responsible for uncovering a number of communist spy moles including Stig Eric Wennerstrom, Col. Israel Beer of Israel and George Blake of M-15 fame.

When Capell's article appeared in 1974, it was met by a flood of letters asking for more detailed information. In response to this deluge of mail, Mr. Capell wrote the book: Henry Kissinger: Soviet Agent.

Kissinger's role as an agent of Soviet Intelligence is brought out into the open in this 120 page documented book. Long out of print, this book was bringing as much as \$100. a copy on the rare book market.
