

HELLO
AGAIN!

Spring is finally showing its face in the northlands of Michigan! At least, it is showing it for today ... and one has to live one day at a time nowadays. It is good to see. No complaints for it has been a bit of a trying winter, to say the least.

ZOG
AND
GULAG

First of all, as you all know, the fighters of the Bruder Schweigen, or the Order, who were on trial in Seattle, were all convicted and have been sentenced. They were immediately removed from the courthouse, after sentencing and flown by the Bureau of Prisons air transport to Lompoc, California. From that federal prison, they were later assigned and then transported to other bastilles in ZOG's version of GULAG. I refer each of you to the latest booklet from Aryan Nations, which covers their stories so very well. Write for the March issue of Aryan Nations booklet and enclose \$1 (or more for that good organization is financially at rock bottom). Address: P.O. Box 567 Hayden Lake, Idaho 83835.

MA
BELL'S
FRONT

We receive collect telephone calls from almost everyone of the Order now behind the wire. We encourage them to phone once a month. More if there are times of need (we just answered two such SOS phone calls for spending money from two lads of the above). Yes, even behind the wire, it takes gold and silver to be relatively comfortable. And we of the Mountain know what it is like to be there, and we have never failed them when they made the call for help. We pay phone bills of from \$250 to \$300 each month. That is where a good part of your donations to help us, end up. But who of you would deny such minor relief to your own brothers who stood for you without hesitation, and now pay the price?

RE
LETTERS
TO POWS

We do not publish the addresses of the members of the Order unless each, specifically, asks us to do so. Several, in fact, have asked us not to publish their addresses. Each man has to adjust to prison in his own way. Each paces himself a bit differently than the next. Let your own desires to let them know of your solidarity flow through our ministry initially, or through other groups who are actually helping these men and their families (and, sadly to say, these are few who actually help but many who write and talk up a storm but whoses purses are shut except for their own immediate self aggrandizement). We will forward your letter to the respective prisoner to be contacted. Then, if he or she desires to keep up with a flow of correspondence, he or she will alone decide that. Put yourself in their position. Respect their wishes. They are the ones who are doing the time.

Send your notes, short and to the point, to us for them unless you have already established direct communication. We will pass them on to them.

USLP
RIDES
AGAIN

We watch with humor at the bleating of the liberals and conservatives alike over the victories of the La Rouché forces in Illinois. La Rouché has positions which we agree with; and ones we do not. He is a racist, unconsciously to be true. His glorification of European culture, morals and histories is instinctive. It is sound. It reflects an inner genetic memory. He mixes his forces, having blacks and jews in his ranks. But then, so did every conquering army in history ... including the SS! We have had a closer relationship with his people than most of you. We are delighted in the havoc which his political raiders have wrought in the ranks of ZOG. Well done, Lyndon, well done!
